- HTML
- CSS
- JavaScript
- Git & GitHub

Marketing & Creative:

- Sales & Marketing Creatives,
- Social Media Design,
- Posters, Banners & Brochures

Soft Skills:

- Communication
- Collaboration
- Attention to Detail
- Time Management

Professional Experience - Internship

UI/UX Intern - Hyperint 2025

- Designed mobile app interfaces with intuitive user flows and visually engaging layouts aligned with user needs and business goals.
- Created demo designs and interactive prototypes for client presentations, ensuring clear design communication and usability.
- Took ownership of specific screens and user flows, iterating designs based on feedback from senior designers and developers.
- Collaborated with the marketing team to design posts, graphics, motion elements, and brand creatives, helping maintain a consistent visual identity across platforms.

Proofreading Intern - Mavenwit 2025

- Proofread and edited digital content for grammar, clarity, and consistency.
- Ensured content quality aligned with brand tone and communication standards.
- Strengthened attention to detail and accuracy in documentation.

Projects

Care Connect Elder-Friendly Healthcare App (Case Study)

- Created a customizable interface with adjustable font sizes, contrast modes, and simplified navigation.
- Prioritised UX for confidence, safety, and ease of use, reducing digital exclusion among elderly users

UI Dashboard

- Designed a modern, user-friendly admin dashboard in Figma, prioritising clarity and accessibility.
- Created visually consistent components and data cards to improve information hierarchy and user experience.
- Implemented a clean colour palette and typography system to enhance readability and overall visual balance

Amaya Skin Essentials

- Designed a complete packaging system for a premium Ayurvedic skincare product, including bottle labels, outer box panels, and realistic mockups.
- Developed a mini brand book covering visual identity, colour palette, typography, and design rationale aligned with brand values.
- Conducted research-driven design, translating mood board insights into a shelf-ready, minimal, and premium packaging concept.

Automation Hub Dashboard – Workflow Monitoring UI

- Designed a responsive dashboard for monitoring automated workflows.
- Focused on clarity, data hierarchy, and real-time status visualisation.
- Improved usability through structured layouts and intuitive navigation.

Education

Bachelor of Technology (B.E) – Electronics & Communication Engineering

Velalar College of Engineering and Technology, Anna University

CGPA: 8.46 | 2019 - 2023

Certifications & Training

- UI/UX Design Internship – Cognifyz Technologies
- UI/UX Intern - Hyperint
- Web Development Training – Internshala
- NPTEL Certification – Problem Solving through Programming in C
