

Job Description

Job Title: Relationship Executive / Relationship Manager

Location: Sholinganallur, Chennai

Experience: 3+ years

About the Company:

Testleaf is a leading online learning platform committed to empowering individuals with high-quality, career-focused training in software testing, AI, and IT technologies. With a strong reputation for innovation, hands-on learning, and student success, Testleaf enables professionals and aspiring learners to upskill and thrive in the fast-paced tech industry.

Job Summary:

We are looking for a proactive and people-oriented **Relationship Executive / Manager** to act as a bridge between students, training teams, sales, and internal departments. The ideal candidate will ensure a smooth learner experience by handling queries, resolving concerns, coordinating with cross-functional teams, and maintaining strong relationships throughout the learner journey.

Key Responsibilities:**Student Relationship Management**

- Serve as the primary point of contact for student queries, concerns, and escalations.
- Maintain strong relationships with learners from onboarding to course completion.
- Guide students with clarity regarding training schedules, assignments, assessments, and certifications.

Cross-Functional Coordination

- Act as a bridge between students, trainers, sales, operations, and support teams.
- Ensure seamless communication between teams to resolve issues quickly.
- Coordinate with the training team for session updates, rescheduling, faculty communication, etc.

Issue Resolution

- Address student grievances promptly and ensure timely closure.
- Identify recurring issues and work with internal teams to improve processes.
- Provide clear and accurate information to students regarding programs, fees, or policies.

Upselling & Engagement Support

- Collaborate with sales teams for student renewals, upgrades, or additional course enrollments.
- Participate in engagement activities like webinars, orientation sessions, and feedback calls.

Candidate Requirements:

- Bachelor's degree.
- Strong communication and interpersonal skills.
- Ability to multitask, prioritize, and handle pressure professionally.
- Problem-solving mindset with high emotional intelligence.
- Basic understanding of EdTech or student-facing roles is an added advantage.
- Comfortable coordinating with multiple teams and managing large volumes of queries.
