

SRIVIDHYA D

Process Analyst - Banking Operations

srividhyad58@gmail.com www.linkedin.com/in/sri-vidhya-0b1089219 Chennai

SUMMARY

Banking operations professional with over 3 years of experience supporting high-volume payment processing, transaction monitoring, reconciliations, and compliance functions. Currently working at Tata Consultancy Services, contributing to end-to-end payment operations with hands-on exposure to AML/KYC processes, exception handling, and quality reporting. Seeking opportunities to contribute to business efficiency and professional development.

EXPERIENCE

Process Analyst

Chennai

Tata Consultancy Services

2022 - Present

- Responsible for analyzing client accounts, filtering transactions, screening clients, and monitoring payments
- Manage expired transaction records, reversals, and end-of-day clearing records
- Ensure that client deposit accounts are properly debited or credited and process payments to customer cardholder accounts
- Handle inactive deposit accounts by processing money orders, chargeback requests, and write-offs
- Allocate tasks to team members, boosting productivity, and consistently exceed daily targets with a 0.5% error rate
- Train new hires, ensure SOPs and skill matrices are up-to-date, and deliver product training to enhance team performance
- Proactively prepare exception reports for quality dashboard reviews and create checklists to minimize process errors
