Work experience

Analyst Test Lead — Optimum Solutions

Jan 2023 - Jun 2025

- Directed a testing team by efficiently assigning test cases and consolidating results, ensuring accuracy and timely completion of testing cycles
- Developed and executed detailed test cases across multiple functionalities, increasing defect detection rates by approximately 30%
- Actively participated in Agile ceremonies, such as daily stand-ups and retrospectives, driving improvements in sprint delivery and team collaboration
- Prepared and presented comprehensive status reports and defect metrics, enabling data-driven decision-making for stakeholders
- Trained and mentored new team members on industry-standard testing methodologies, reducing onboarding time by 25%
- Collaborated with cross-functional teams, including developers and product managers, to ensure successful project delivery and robust quality assurance

Quality Engineer Senior Analyst — Accenture Services Pvt Ltd

Jun 2021 - Dec 2022

- Conducted manual testing for various insurance projects, ensuring that client requirements were met.
- Collaborated with developers for product testing and changes.
- Managed all aspects of defect logging and tracking with JIRA.
- Conducted training and knowledge-sharing sessions for junior members of the team.

Software Test Engineer — Indium Software

Dec 2018 - Jun 2021

- Developed automated test cases using Selenium WebDriver and TestNG for data-related applications.
- Executed test cases and managed defect tracking using JIRA.
- Implemented best practices for automation frameworks to improve efficiency and reduce manual efforts.

Software Test Engineer — IBM Global Process Services

Jun 2017 - Dec 2018

- Understood Business Requirement Documents (BRD) and functional documents to create test scenarios and cases.
- Collaborated in a team environment to support UAT testing and defect triage.
- Ensured all items met specifications before release through thorough testing.
