Work Experience

Company: Tata Consultancy Services

Payroll: Core Integra Consulting Services

Project : TCS iON

Role: MIS Executive

Aug 2024-Till Now

Zonal MIS Governance & Reporting

- Act as Zonal MIS SPOC, managing MIS operations across South 2 Zone.
- Prepare, validate, and publish daily, weekly, and monthly MIS reports for leadership.
- Ensure high data accuracy, consistency, and governance compliance.

Client Coordination & Government Projects

- Coordinate with TNPSC, RRB, and other government clients for reporting and deliverables.
- Track project-wise data and ensure on-time completion without delays or escalations.
- Support audits, reviews, and client clarifications with validated MIS insights.

KRA / KPI Tracking & Performance Analytics

- Track KRA and KPI metrics for zonal and regional operations.
- Identify risks, delays, and performance gaps using MIS and analytics.
- Provide data-backed inputs and dashboards to support management decisions.

Power BI & Python-Based Reporting

- Build and maintain Power BI dashboards for performance, closures, and trends.
- Use Python (Pandas, NumPy) for data cleaning, analysis, and validation.
- Automate recurring reports and improve reporting efficiency.

Stakeholder Coordination & Review Calls

- Interact with Zonal Managers, Regional Managers, HR, Training, and Ops teams.
- Host and support zonal and regional review calls with structured MIS presentations.
- Track action items and ensure timely closures.

Process Improvement & Controls

- Improve MIS formats, trackers, and reporting workflows.
- Flag process gaps and suggest improvements to enhance reporting quality.
- Ensure adherence to SLAs and internal governance standards.

Company Name: Dow Technologies

Sep 2019 - Jul 2024

Role: UI/UX & Web Developer

- Designed and developed responsive web applications with focus on usability and performance.
- Led UI/UX design initiatives, improving user engagement and experience.
- Collaborated with cross-functional teams on frontend, backend, and design optimization.
- Supported full development lifecycle from requirements to deployment.
- Improved application performance, accessibility, and visual consistency.
