Profile Summary

Skilled QA Automation Engineer with 2+ years of experience supporting end-to-end testing activities across multiple releases. Experienced in verification and Validation, meeting delivery timelines, and working closely with cross-functional teams. Strong experience in security testing and Agile environments, with effective prioritization to support fast-paced project delivery.

Skills

Programming Languages: Python, C++, Java.

Automation Tools & Frameworks: Selenium WebDriver, TestNG, Cucumber (BDD), Robot Framework.

Network Security Tools: Burp Suite pro, Nessus, Network Mapper, Qualys, Metasploit, Wireshark.

Test Management & Defect Tracking: TestRail, JIRA, HP-ALM, You Track.

QA Tools & Technologies: API Testing (Postman, SoapUI), Version Control (Git, Jenkins), Linux commands, Git, Jenkins, QA documentation, **IDE:** Eclipse, PyCharm, Wit.ai.

Work Experience

Alcatel-Lucent Enterprise - [R&D] (via Talent pro India HR Pvt Ltd.)

Jul 2022 - Aug 2024

Software Engineer

- Designed and executed **end-to-end automation** test scenarios for Omni PCX web applications using **Java** and **Selenium**, improving overall regression stability and coverage.
- Developed and automated **120+ functional** and **regression test cases**, reducing manual testing effort by approximately **60%** and accelerating release cycles.
- Implemented **Page Object Model (POM)** and **BDD framework** using **Cucumber** and **Gherkin**, enhancing test maintainability, readability, and reusability.
- Automated the creation and configuration of user accounts and telephone assignments on Alcatel dual-node systems, including **SIP trunk validation**, ensuring seamless **inter-node** communication and system reliability.
- Generated detailed automation execution reports using **TestNG** and integrated automated test suites into **Jenkins CI/CD pipelines** for continuous testing.
- Performed **API testing** using **Postman** and **SoapUI**, validating request/response payloads, headers, and HTTP status codes.
- Conducted **web application** and **network security testing**, including protocol validation and port scanning using **Nmap**, and vulnerability assessment using **Burp Suite Pro**, **Nessus**, and **Qualys**.
- Logged, tracked, and validated defects using **JIRA** and **HP ALM**, collaborating closely with developers, product owners, and stakeholders throughout the defect lifecycle.

- Created and maintained detailed test cases and test scenarios in **TestRail**, ensuring alignment with functional, technical, and business requirements.
- Designed and implemented a **Proof of Concept (POC)** automation framework for an internal **HR management web application** at **Omnify** using the **Robot Framework (Python, PyCharm)**, covering employee profile creation, updates, and personnel data management workflows.

Education

SSN Institutions, Chennai

Aug 2020 - Jul 2022

M.E in Communication System

Kongu Engineering College, Erode

Jul 2016 - Aug 2020

B.E in Electronics & Communication

Journal Publication

Research Trends in Dermatologist Level Automatic Classification of Various Skin Lesions Using Deep Learning – Indian Journal of Public Health Research and Development, Vol. 11(2), 2020, DOI: 10.37506/v11/i2/2020/ijphrd/194882.

Certifications

- Alcatel Certified Field Expert - ACFE.
- Alcatel Certified System Expert - ACSE.
- ISTQB Certification - Foundation Level (In Progress).
