IDP Education India

02/2023 - 08/2024,

Education & E-Learning

- Executed test plans, test cases, and automation scripts using Selenium & TestNG.
- Involved in Web Application Testing, Database Validation, and Defect Tracking via JIRA.
- Automated functional testing frameworks and prepared detailed reports.
- Worked in Agile-Scrum methodology, participated in daily stand-ups and sprint reviews.

Product Software Engineer

Wolters Kluwer

02/2010 - 09/2022,

Web Application

- Conducted functional and regression testing for enterprise applications.
- Developed and executed automated scripts using Java and Selenium.
- Involved in peer reviews, defect triage meetings, and reporting.

Test Engineer

Solid Solutions

06/2020 - 01/2022, (Including freelance)

Web Application

- Performed manual and automated testing for client projects.
- Developed scripts in Eclipse with TestNG framework.
- Reported and tracked defects using JIRA.
- Participated in Agile ceremonies (Sprint Planning, Retrospectives).

KEY FUNCTIONS

- Software Testing (Manual & Automation): Functional, Regression, Integration, Smoke, End-to-End testing
- Automation Tools & Frameworks: Selenium WebDriver (Java), TestNG, Cucumber-BDD, Data Driven, Page Object Model (POM)
- Test Management: Test planning, scenario design, test case execution, defect tracking & reporting (JIRA, TFS)
- Agile Practices: Active participation in Agile-Scrum methodology (stand-ups, sprint planning, retrospectives)
- Database Testing: Writing and executing SQL queries for backend validation
- Version Control & Build Tools: GIT for source management, Maven for build execution
- Collaboration: Coordinating with developers, business teams, and participating in defect triage calls
- Process Documentation: Preparing SOPs, test reports, and peer reviews of test cases/scripts

SOFTWARE SKILLS

- Manual & Automation Testing (Selenium WebDriver with Java)
- Programming Languages: **Core JAVA**
- Testing Method: Manual & Automation-**Selenium WebDriver**
- Framework: **TestNG, BDD Cucumber, Data Driven.**
- Defect Tracking: **JIRA**
- SCM Tool: **GIT**
- Agile-Scrum** Methodology

AWARDS & ACHIEVEMENTS

- High-Five Award for being a Meticulous Team Player
- Appreciation for resolving critical Microsoft Data API issues.
- SSC Accelerate 2024 for early product release completion.
- Contributed as a key member of the ECC Software Testing team, ensuring high-quality delivery of releases.
- Improved test efficiency by automating critical workflows using Selenium WebDriver with Java
- Collaborated with cross-functional teams to ensure timely defect resolution and SLA adherence

EDUCATION & CERTIFICATIONS

B. Tech Information Technology (Anna University, CGPA : 8.5 (Gold Medal))

06/2008 - 07/2012,

- Selenium Automation Training – Aug 2019
- SAFe (Scaled Agile Framework) Corporate Training – Dec 2021
