PROFESSIONAL SUMMARY

Java Backend Developer with 4+ years of experience in developing scalable applications using Java 8, Spring Boot, REST APIs, and Microservices. Proficient in the full software development lifecycle, unit/integration testing, CI/CD pipelines (Jenkins, GitLab), and code quality analysis (SonarQube). Experienced in performance monitoring, managing dependencies with Maven/Nexus, and database management. Adept at delivering robust, high-quality solutions in Agile environments.

WORK HISTORY

Mphasis Ltd - Software Engineer

Chennai, India

02/Nov/2021 – 17/Oct/2025

PROJECT - 1 : FedEx – Logistics

- Developed and maintained Spring Boot microservices for Rating, Pickup, Location and MBG modules.
- Integrated OKTA token-based authentication for service-to-service calls.
- Refactored Java code, improving performance by 25%
- Resolved 40+ SonarQube, NexusIQ and Kenna vulnerabilities.
- Improved code coverage by 95% through JUnit & Mockito test implementation.
- Optimized application response time by implementing caching mechanisms and efficient database queries, resulting in a significant improvement in user experience.
- Created bash scripts to automate deployment tasks (70% effort reduction).
- Migrated applications from RHEL 6 to RHEL8, improving performance by 15%.
- Deployed services across PCF, Tomcat, and WebLogic servers and monitored applications via AppDynamics & Splunk, identifying bottlenecks.

PROJECT - 2 : Fiserv – Banking

- Migrating OPTIS from Mainframe batch code to Java, utilizing MongoDB for data management, Apache Flink for stream processing, and XAAP for enhanced functionality.

- Root cause analysis for the defects and collecting project review metrics.

Flex – Backend Engineer

27/Oct/2025 – 08/Jan/2026

- Worked on developing a Ticketing tool application for Supply Query Management using Java, spring boot and SQL.

SKILLS

- **Core Languages:** Java, SQL, Shell Scripting.
- **Framework & Technologies:** Spring Boot, Spring Security, Spring Batch, Microservices, REST Api.
- **CI/CD & Deployment:** Jenkins, GitLab, GitHub Actions, Docker, uDeploy, PCF, Apache Tomcat, RHEL
- **Testing & Monitoring:** JUnit, Mockito, Postman, Insomnia, SoapUi, SonarQube, AppDynamics, Splunk
- **Databases:** IBM purescale, Oracle, MongoDB.
- **Others:** Maven, Git, GitHub, GitLab, WinSCP, Putty, SQL Developer, IntelliJ, Eclipse, Apache Kafka, Apache Flink, JMS, Version one.
- **Operating Systems:** Linux, Windows.

Achievements

- Employee of the Year – 2023
- Best Team Player Award
- Kudos Award (4 times) for exceptional performance and collaboration
- Certification of Appreciation for successful migration from Mainframe DB to PureScale DB

EDUCATION

VelTech MultiTech - Sep/2021

Bachelor of Engineering:

- Graduated in the field of Electronic and Communication Engineering with CGPA of 7.41
